

2) Berechnung des Flächeninhalts

Planfijur:

A3 = 1. 159, 95 cm · 112 cm = 8 9 5 7,2 cm2

Gasamtfläche AG

AG: An + A2 + A3 2 1,32 m²

Berechnung des Flächeninhalts des Trapez:

$$A = 12 \text{ m} * (60 \text{ m} + 45 \text{ m}) : 2 = 630 \text{ m}^2$$

Berechnung Volumen des Kanals:

$$V = G * I$$
